Visit FreedomWindow.net Freedom from biased polls

Washington Post, PA, 10/26-10/30
Poll Bias Score = 35, insignificant bias.
Primary bias is in the age groups, proHarris, but it is insignificant. Included in my average.

POLL BIAS CACLULATOR

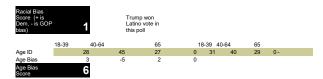

Understanding the Overall Poll Bias Score – A perfect bias score as compared to the 2020 exit polis equals a D value. A positive score equals a Democratic bias. A negative score equals a Republican bias. The higher the value of the number, the worse the bias. I will adjust polis with this score in mind. Usually the adjustment is straightforward in that I can apply the proper party ID, gender ID, education ID to the party votes provided in the cross tabs. Sometimes pollsters hide the party ID, gender ID or deuctation ID, but I have methods of inferring those. The calculators for inferring these party ID values can be found below. Regional bias usually can't be inferred, although if they provide how each region votes they can.

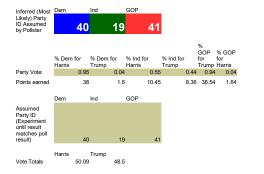

| | Philly | Philly Subs | s NE | Central | W | est Philly | Philly Subs | NE | Central | West | |
|---|--------|------------------------------|------|---------|----|------------|----------------|----|---------|------|----|
| Regional Values (national polls only) | | 11 | 22 | 17 | 22 | 28 | 11 | 22 | 18 | 22 | 17 |
| Regional Bias (National Polls Only) Regional Bias Score (+ is Dem, - is GOP bias) | | 0 1 _{n/a} | 0 | 1 | 0 | -11 | | | | | |
