

Atlas National Poll
10/12/2024 - 10/17/2024

US Presidential Election 2024

Summary

1. Methodology and sample profile

2. Results

- 2.1. Presidential Approval
- 2.2. Image of politicians
- 2.3. Presidential Election Scenarios
- 2.4. Key Topics in the US Presidential Race
- 2.5. Social Polarization
- 2.6. Economy

3. About AtlasIntel

1. Methodology and sample profile

Target population

Likely voters in the United States

Sample size

4,180 respondents

Methodology

Random Digital Recruitment (Atlas RDR)

Margin of error

±2 p.p.

Confidence level for estimation of the margin of error

95%

Polling Period

10/12/2024 - 10/17/2024

Gender

Female	50.8%
Male	48.4%
Other / prefer not to identify	0.8%

Yearly household income

Below \$50k	33.0%
\$50k - \$100k	39.4%
Above \$100k	27.6%

Partisanship

Democrat	34.7%
Republican	34.5%
Independent	30.7%

Age

18 - 29	17.2%
30 - 44	24.7%
45 - 64	36.3%
65+	21.8%

Education Level

College degree or higher	43.7%
All other	56.3%

Region

Suburban	52.6%
Urban	28.1%
Rural	19.3%

Race

White	70.4%
Black	10.0%
Hispanic	12.0%
Asian	2.9%
Other	4.7%

2. Results

2.1. Presidential Election Scenario

Provided that these were the candidates, who would you vote for in the upcoming presidential election?

About AtlasIntel

AtlasIntel is one the “select pollsters” awarded with a diamond from The New York Times for our reliability and accuracy in previous polls in the United States.

The latest polls

Every poll here influences the averages above. Polls from “select pollsters,” which meet certain criteria for reliability, count for more. You can filter by state, toggle to show only select pollsters, and choose head-to-head or three-way matchups.

Ruth Igielnik
Staff editor, polling

Polls by “select pollsters” are shown with a diamond. These pollsters have backgrounds that tend to mean they are more reliable. Also, polls that were conducted by or for partisan organizations are labeled, as they often release only results that are favorable to their cause.

AtlasIntel is the only web-based polling company with an A-rating in the FiveThirtyEight pollster ranking, which evaluates the historical accuracy and the methodological quality of polls.

AtlasIntel was the most accurate pollster of the 2020 presidential election in the United States.

Atlas polls had an average error of only two points and anticipated election results within the margin of error in all swing states during the worst cycle for the US polling industry in four decades.*

Replying to @NateSilver538

Finally, here's how the most prolific pollsters fared in the general election.

The best-performing pollster was AtlasIntel!

Second was Trafalgar!

Yeah, they incorrectly had Trump winning a few states, but they were close on the margins, and that's the better metric.

AtlasIntel was 2020's most accurate pollster

Average error of polls in final 21 days before the 2020 general election, for pollsters that conducted at least 10 polls

AtlasIntel was the most accurate pollster of the 2022 Constitutional Plebiscite in Chile

Public and private AtlasIntel polls accurately captured the dynamics of voter mobilization and came closer to the final vote count than any competitor.

AtlasIntel public releases both before and after the start of the poll blackout period indicated that slightly more than 58% of Chilean voters would vote to reject the new constitution; with 61,8% of votes cast against the new constitutional text, AtlasIntel came closest to the final outcome regardless of whether one considers polls released before or during the blackout period.

AtlasIntel was the most accurate pollster of the last three election cycles in Argentina (presidential elections, legislative primaries, and legislative elections).

In each of the three election cycles, AtlasIntel had the lowest polling error. In 2023, AtlasIntel was the only pollster to correctly indicate the winners of both the 1st Round (Sergio Massa) and the runoff (Javier Milei).

2019 Argentina Presidential Election Polls

2019 Atlas Tracking Pro Time series

AtlasIntel polls anticipated the major swings of the 2022 presidential race in Colombia, during the primaries and the campaigning for the 1st round of voting and then the runoff.

AtlasIntel was the only pollster to correctly anticipate the deadlock resulting from the 2023 legislative election in Spain

With an error of less than a tenth of a percentage point, AtlasIntel was the only pollster to correctly estimate the difference between the PP and the PSOE as well as the difference between the ideological left-right blocks. The surprising result resulted in a legislative deadlock.

El Confidencial

La única encuesta que ha clavado los resultados del 23-J se hizo en São Paulo: "Era un experimento"

En un contexto en el que las casas de encuestas están siendo criticadas por sobreestimar a la derecha, a Atlas Intel le bastó un único sondeo el 17 de julio para acertar más que ninguna

Roman (izquierda, camisa gris), junto al equipo de Atlas Intel que ha realizado la encuesta desde Brasil. (Cedida)
